

Modification of Election Laws by Agreement; Senate Sub. for HB 2252

Senate Sub. for HB 2252 amends law regarding modifying election laws by agreement.

The bill prohibits the Governor, the Secretary of State (Secretary), and any other officer in the executive branch from entering into a consent decree or other agreement with any state or federal court or any agreement with any other party regarding the enforcement of election law or the alteration of any election procedure without specific approval by the Legislature. [*Note:* Current law restricts only the Secretary from entering into such agreements without specific approval by the Legislative Coordinating Council (LCC).]

If the Legislature is not in session when such agreement is submitted for review, the bill requires approval to be sought from the LCC.
